

GRAPHIC DOOR

Ultraclean multi-system door.

The Graphic Door works with all systems to provide a beautiful full-graphic entryway when you need an SEG door in structures or walls. Bezel-free with no visible hardware, the Graphic Door's edge-to-edge SEG fabric coverage provides a continuous graphic look.

- Easy integration with all Moss systems.
- Handle with lockable keyless entry allows backlit keypad with up to 10 code combinations.
- Door with handle location available on the left or right side.
- Welded construction.

- Door surround size including threshold: 39" x 93.5" (990.6mm x 2.38m).
- Door opening size: 30.6" x 80.5" (778mm x 2.04m).
- Door surround depth: 80mm.
- Door depth: 40mm; front of door sits flush with front of surround.
- Weight including handle/ hardware: 56 lbs (25kg).
- Door surround connects to other framing via joiner rail, Moss Tension Locks™ or custom mechanical connection.
- Can accept 3mm opaque rigid materials using low profile hook-and-loop attachment.
